

ROCKLEDGE BUILDING DEPARTMENT

ELEVATION AND DRAINAGE PLAN
ACKNOWLEDGEMENT FORM

BUILDERS NAME:	DATE:
LOCATION:	PERMIT NO:

SECTION 1

This is to acknowledge that the Finished Floor Elevation of the aforementioned address will have a minimum elevation of at least 22" (twenty-two inches) above the crown of the road, but not more than a maximum elevation of 26" (twenty-six inches) above the crown of the road on which the lot affronts or per approved engineered site plan or as approved by the City of Rockledge. City of Rockledge Public Works Department approval shall be required for all building permits. No change will be made in the maximum elevation without expressed written approval of the Rockledge Building Official.

SECTION 2

This will also acknowledge that the aforementioned lot will be graded as shown on the submitted drainage site plan, and approved subdivision drainage plan. However, if the drainage of said lot is found to be inadequate, the Builder shall agree to cause all surface, storm, flood and other waters to adequately and suitably drain back to conform to the approved Subdivision plan.
