Section 4. REFERENCES TO CODE / LAND DEVELOPMENT REGULATIONS.

Identify the section(s) of the Rockledge Code of Ordinances and/or Land Development Regulations from which you are seeking a variance.

Section 5. DESCRIPTION OF SPECIFIC CONDITIONS.

Variations are considered when they are not contrary to the public interest and where, owing to special conditions, a literal enforcement of the regulations would result in an unnecessary hardship.

Section 23.20(C)(1)(a-f) of the Land Development Regulations sets forth six (6) specific conditions that the Board of Adjustment must consider before it authorizes any variance. Please provide descriptive information for each condition set forth below.

- (1) That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other lands, buildings or structures in the same zoning district.

- (2) That special conditions and circumstances listed above do not result from actions of the applicant.

- (3) That granting the variance requested will not confer on the applicant any special privilege that is denied by these regulations to other lands, buildings, or structures in the same zoning district.

- (4) That literal interpretation of the provisions of these regulations would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of these regulations, and would work unnecessary and undue hardships on the applicant.

- (5) That the reasons set forth in the application justify the granting of the variance, and that the variance granted is the minimum variance that will make possible the reasonable use of the land, building, or structure.

- (6) That the granting of the variance will be in harmony with the general intent and purpose of the zoning code and that such variance will not be injurious to the area involved or otherwise detrimental to the public welfare.

While these conditions may seem unduly harsh and stringent to the individual applicant, it must be understood that the zoning regulations were enacted for the benefit of the community as a whole by requiring an organized and controlled pattern of community development.

It should be noted that the difficulties or hardships must be peculiar to that particular property and not general in character, since difficulties or hardships shared with others in the area as to the reasonableness of the zoning generally, will not support a variance. If the hardship is one that is common to the area, the remedy is to seek a change of zoning for the neighborhood.
