March 2014

Motor Vehicle Safety!

Did you know that vehicle-related accidents are the number one cause of fatalities, both on the job and off?

In order to minimize your risk and ensure maximum safety, please always remember to do the following:

Seat Belts

- Buckle up as soon as you are in your vehicle. It's the law!

Mirrors

- Take a moment to make sure that your rear-view and side-view mirrors are adjusted properly.

Observe Good Driving Habits

- Obey speed limits and traffic signs.
- Be aware of your surroundings.
- Don't tailgate.
- Adjust to hazardous weather conditions.

Proper Vehicle Maintenance

- Have all engine parts inspected regularly.
- Check headlights often.
- Be sure that all engine fluids are adequately filled.
- Maintain correct tire pressure.
- Ensure maximum visibility by keeping windows clean and windshield wipers in good condition.

By putting into practice the tips shown above you will be assured of conserving fuel and saving cost. The benefits will be very rewarding!

COMING SOON!

2014 Relay For Life – Rockledge!

Relay For Life is a community-based, volunteer-driven activity designed to not only increase awareness of, but also to raise funds for, fighting cancer. The American Cancer Society’s signature event, Relay For Life, represents the hope that those lost to cancer will never be forgotten, and that those who are currently fighting the disease will receive all of the support and comfort that they require.

Teams for 2014 Relay For Life began forming back in 2013. Once the fundraising period ends, a celebration will be held to commemorate all of the survivors, patients and those that have been lost. The celebration, which will start on April 12, 2014, at noon, takes place at Larry L. Schultz Park, Fiske Blvd. and Levitt Pkwy. There will be a number of activities, ceremonies, children’s games, and contests.

To date, 15 teams and 50 participants have raised \$3,225.60. To learn more about Relay For Life-Rockledge, visit www.relayforlife.org/rockledgefl.

Save the Dates!
